

SBE 70 MINUTES

Named SBE's "Best Chapter Newsletter"

WJCU John Carroll University	20700 North Park Blvd. University Heights	Gather at 7pm Meeting at 7:30pm	October, 2012 Vol. XX Number 9
--	---	---	--

MEETING DETAILS FOR OCTOBER 9th

Our next meeting on Tuesday Oct. 9th will be at WJCU located at 20700 North Park Blvd. University Heights, OH 44118, on the campus of John Carroll University where the GM Mark Krieger will be our host. We will be meeting in the Klein TV studio again, located on the ground floor of the O'Malley Center (just adjacent to the main admin building, north side). The building is clearly marked with a sign out front. People should enter the JCU campus from the south-west entrance (North Park), just off the Warrensville/Fairmount traffic circle. After the meeting we will go over to the WJCU studios for Marks program on the challenges/changes presented to non-comm radio broadcasters by current technology trends. I think some folks might find it interesting, given the fact that the plant is now (Axia) IP audio throughout. Tours will be available after the program, if you haven't seen it before Mark runs a very nice operation as you would expect. Meeting times are the usual, gather around 7pm with the business meeting to go at 7:30 and the program to follow that. You may want to get an early start as the campus is a bit of a maze for those new to it, and some not so new too.

CHAIRMAN'S CHAT

by Blake Thompson, CBNT

Welcome all members and friends of SBE Chapter 70, here's your Oct. chat. First big Chapter thanks go out to Tim Czyzak, Ray Grubic, and Ed Strickland of Industrial Video for being such good last minute hosts. Thanks also to Bill Barton, Avid's Director of Sales, for flying in to give us a program on the new Avid Interplay System. Cool stuff to be able to edit in Avid from the field, or anywhere for that matter. Those of you who don't make these meetings are really missing out on some good info and cool technology. You never know how much money you could save your station by finding out about these type of developments first hand.

(continued on page 2)

SBE CHAPTER 70 - CLEVELAND/AKRON

Chairman's Chat (continued from page 1)

I just got back from the 10th Annual OAB/SBE/SMPTE Engineering Conference in Columbus and it was another successful event. We had over 100 attendees there for the educational sessions and vendor exhibits. We had a session on Fiber that went over things that hadn't been covered in the Fiber program we had at WEWS a few months ago. We also learned about ERI's unique method for HD Radio combining that has very low losses through the combiner, a real game changer. I was also able to get some vendors in the pipeline for meeting programs for us.

I received a request from Ted Karam for someone to assist the Maplewood Career Center, hopefully one of you can give them a hand:

This is Ted Karam, the Electronics and Computer technologies instructor at Maplewood Career Center in Ravenna. I'd like to know if you or someone in the Broadcast engineering career field would be willing to be on my advisory board. We only meet twice a year for as half hour or so and I provide your dinner. The purpose of the advisory board is to make commendations and approvals for the Electronics and Computer Technologies program so our students have the best opportunities when they enter post-secondary education, the job market, or the military.

Please consider being a part of this or recommend someone who might be willing to lend their expertise to our program's Advisory Board.

Thanks you for your time!

Ted Karam Electronics Instructor
