

SBE CHAPTER 70 - CLEVELAND/AKRON

SBE 70 MINUTES

Named SBE's "Best Chapter Newsletter"

Radio Broadcasting Museum	Tuesday January 13th	Gather at 7pm Meeting at 7:30pm	December 2008 SPECIAL EDITION
--------------------------------------	---------------------------------	--	--

The January 13, 2009, Chapter 70 SBE meeting will be at the Radio Broadcasting Museum on the lower level of the Baseball Heritage Museum, located in the Colonial Marketplace at 5th and Prospect, in downtown Cleveland.

We're giving advanced notice so that you can help spread the news and plan for this special event! Technically, the address is 530 Euclid Avenue, but the Arcade extends through to Prospect Ave, and due to more construction on Euclid, we strongly suggest everyone come in the Prospect entrance. The museum is still free, but we suggest you "car pool" and split the cost of parking. There are plenty of parking garages, and a large surface lot directly across the street on Prospect that extends over to Huron. So far, there are no special events that night so parking rates should be minimal. Street parking is free after 6pm.

Doors will open at 6:30. Gather at 7 as usual. Our business meeting will be at 7:30. There will be no formal program that night except for a short review of the OAB Engineering Conference. The remainder of the evening will be to take in the displays of our Radio Historian Extraordinaire, Jim Davison and his Broadcasting Elves and what they have been continuing to develop since the Grand Opening this past June.

Displays include an early baseball broadcast booth, a 1950's studio, a 1970's studio, a vintage newsroom, transmitter room, and display stands filled with early radio memorabilia. The walls are filled with drawing, posters, banners, photos of old radio personalities, and t-shirts from the past. You'll also want to see the Baseball Heritage Museum!

Please try to check in with Blake Thompson blake@uakron.edu 330-972-6221 so he can make sure to have enough food, but don't let those formalities keep you from coming!
