

SBE CHAPTER 70 - CLEVELAND/AKRON

SBE 70 MINUTES

Named SBE's "Best Chapter Newsletter"

Telos/Axia/Omnia 216.241.7225	1241 Superior Ave. East Cleveland 44114	Gather at 7pm Meeting at 7:30pm	May 2010 Vol. XVIII Number 4
---	---	---	--

MEETING DETAILS FOR MAY

Hello all SBE 70 members and friends. I hope you all enjoyed the NAB / April break and are ready to get back into our SBE meetings. Chapter thanks go out to Jim Georgiades and all the folks at WKTX-AM 830 for hosting the March meeting. Those who couldn't make it missed a great local station doing it old school. It was a trip down memory lane for most of us. Some of the memories were more like nightmares on certain gear but... it was a very fun time! Jim also had some of the best pizza, from Angelo's in Lakewood, that I have had in a while.

Our next meeting on Tuesday May 11th will be back at our new home base at Telos / Axia / Omnia's new home on 1241 Superior Avenue E. Cleveland, OH 44114. Parking is all on street with E. 13th being your best bet. We will gather around 7pm with the meeting to start at 7:30. Frank, Corney, Mark, & Ted have a bunch of new stuff they debuted at NAB to show us. The Omnia 11 looks to be the new 'killer app' in processing! There will also be looks at the new Axia iQ console and Telos Z/IP & new VX & Nx series hybrids and phone systems. These folks are always up to something good as evidenced by the Telos VX, Omnia.11, and Axia iQ all winning multiple tech awards at NAB!

Chapter congratulations go out to Telos' Steve Church for his much deserved NAB Engineering Achievement Award. We all know Steve pioneered the way we handle phones in radio and he was also the first to work with Fraunhofer on using mp3 coding in broadcasting as well. More recently he created the Livewire audio over IP standard. Way to go Steve, and Frank can't be too far behind.

Congratulations Steve Church

Founder and Chief Executive Officer of Telos

Recipient of NAB's Engineering
Achievement Award

Two Webinars added to Webinars by SBE (SBE: April 30, 2010)

[Maximizing HD and 1080p/60 Cable Performance](#) takes place June 15, and [Human Factors in Broadcasting](#) will be presented on July 13. Both webinars begin at 2:00 p.m. Eastern and last for two hours.

Maximizing HD and 1080p/60 Cable Performance reviews how digital video cable is designed and manufactured, and how installing it can affect the performance of the system.

Human Factors in Broadcasting provides an introduction to Human Factors as it relates to the field of broadcast engineering. Attendees will gain an understanding of how to increase workflow, reduce costly errors and increase productivity. Understanding Human Factors will help participants become better judges of proposed benefits of products and services that use "Ergonomics" as part of the selling points. In addition, the physical and cognitive limitations of humans will be discussed, as well as just how costly it can be to ignore human factors.

Making Digital Radio **Work.**

Davis and Locke Elected SBE Fellows (SBE: April 21, 2010)

The Board of Directors of the Society of Broadcast Engineers has elected Sterling E. Davis and Robert W. Locke, CPBE, CBNT as SBE Fellows. Davis and Locke were elected during the Board of Directors meeting held during the 2010 NAB Show on April 11.

Davis is Vice President of Engineering for Cox Media Group in Atlanta, Ga. and a member of SBE Chapter 5 in Atlanta.

Locke is the Chief Engineer for KPTS in Maize, Kan. and a member of SBE Chapter 3 in Kansas.

The SBE Fellow Award recognizes members who have rendered conspicuous service, or who have made valuable contributions to the advancement of broadcast engineering or its allied professions, the dissemination of knowledge thereof or the promotion of its application in practice.

Following the election, SBE President Vinny Lopez, CEV, CBNT remarked, "The Society is pleased and honored to add Sterling and Robert to the highest level of SBE Membership, the SBE Fellow."

Both recipients will be recognized for their elevation to Fellow during the SBE National Meeting in Madison, Wisconsin on October 27, 2010.

Terrence M. Baun, CPBE, AMD, CBNT receives SBE Lifetime Achievement Award (SBE: April 21, 2010)

Terrence M. Baun, CPBE, AMD, CBNT, Director of Engineering and Operations for the Wisconsin Educational Communications Board, received the Society of Broadcast Engineers Lifetime Achievement Award. Baun received the award on Tuesday, April 13 during the annual SBE Spring Membership Meeting at the 2010 NAB Show.

The SBE Lifetime Achievement Award recognizes outstanding contributions and achievements by an individual throughout his or her professional lifetime.

Baun is a 34-year member of the SBE. Within the SBE, Baun has served on the National Certification Committee for 12 years, serving as chairman for three of those years. He also served as a Director, Vice President and was elected the SBE National President in 1995. Baun was named the SBE Broadcast Engineer of the Year in 1991, which was the first time the award was presented. He was named an SBE Fellow in 1999 and in 2003 was named the SBE Educator of the Year.

SBE President Vinny Lopez, who made the presentation, said, "Terry's dedication to SBE and its mission, as well as his passion for broadcast engineering, are exceptional. His contributions to the industry and the SBE have been tremendous and we are honored to recognize him with this award."

SBE 2010 Certification Exam Schedule

Exam Dates	Location	Application Deadline
February 5-15	Local Chapters	Closed
April 13	NAB Convention	Closed
June 4-14	Local Chapters	Closed
August 6-16	Local Chapters	June 4, 2010
November 5-15	Local Chapters	September 17, 2010

Rewrite the rules of the game.

If you've been waiting for the perfect ProHD Broadcast and Production Camcorder, here is a serious tool for the next generation for shooting HD news, sports, documentaries, multi-camera shows and indies. With 720/60P capture and recording capabilities, JVC's GY-HD250U delivers HD images needed for demanding ENG, EFP and studio use.

The GY-HD250 Camcorder:

- Native 1280x720p CCDs
- Multiple frame rate recording: 24, 25, 30, 50 & 60p
- Cross converter provides 720p or 1080i Output
- HD-SDI output w/embedded audio
- Record on tape and/or HDD
- Studio option with CCU
