

SBE CHAPTER 70—CLEVELAND/AKRON

70 MINUTES

November 2020 Vol. XXVIII Number 11

Tuesday, November 10, 2020 Gather Online beginning at 6:30pm
Meeting @ 7:00pm Presentation to follow
Virtual solutions 101: How to get started with virtual workflows
– Jake Alderman, Telos Alliance

Meeting Information

Our next meeting will feature a presentation by Jake Alderman of the Telos Alliance. That will be after our gathering and Chapter Meeting. Log into our Chapters Zoom account beginning at 6:30PM on Tuesday, November 10th. We will begin the Chapter Meeting at 7PM, with Jake's Presentation to follow.

The Title is 'Virtual solutions 101: How to get started with virtual workflows.' Join Telos for discussion about the technologies that underpin the catch phrase "Virtual solutions." During this session we will take a look behind the curtain at virtual machines, containerization, and the cloud work. With the understanding of these solutions we will then apply our knowledge by exploring how broadcast can leverage them.

Thanks again to Jake Alderman and Telos for putting together this presentation for us. Jake has hosted at least one past presentation for Chapter 70, but for those of you who may not be familiar, Jake's 'bio' is in this newsletter on page 3.

The Presentation will begin after the Chapter Meeting and Election. A link and the password to join the meeting is contained in the email with this newsletter.

See you Tuesday! 1
John Hovanec, CSRE/CBNT, DRB, AMD
SBE Chapter 70 Program Chair

Chairman's Chat

Hello all members and friends of SBE Chapter 70! First I want to thank Steve DeFala from AMT for the program on how remote vehicles have evolved over the years. Learning from folks who have gone through all the challenges involved for several years is always quite informative. You'll notice more SUV based systems on the road with more features than you would think could fit.

On a more local note, you may have heard of recent attempts to disrupt broadcast and telecom facilities in the area. Everyone still needs to be vigilant and make sure their facilities are secure, and to notify police immediately if they see anything suspicious or get a transmitter

(Continued on page 2)

Chairman's Chat ((Continued from page 1)

security alarm. It looks like more than one attempt was made to disrupt service, not as a theft. We suggest that everyone be careful, especially in out of the way locations or at night if working alone.

In National news, you should check out the new, cleaner, streamlined SBE website. Still www.sbe.org!

About 70 mentors and mentees have been involved this year in the SBE Mentor program! The next cycle will be starting soon. If you know of someone you'd like to get involved as a mentee, or as a mentor, contact Cathy Orosz at the national office. 317 846-9000 or corosz@sbe.org.

Two new SBE webinars are scheduled for November. Join Kirk Harnack, CBRE, CBNE on Thursday, November 12 at 2:00 p.m. EST as he explores *Broadcast During and After a Pandemic: What Works and What Doesn't*. The webinar is free to members with the SBE MemberPlus option.

HD Radio Streamlined and Redefined 4th Generation Hardware will be presented by Alan Jurison, CPBE, AMD, DRB, CBNE, senior operations engineer at iHeartMedia on Wednesday, November 18 at 2:00 pm EST. This is a free webinar for all, thanks to a sponsorship provided by HD Radio. Register at www.sbe.org.

Dave Gleason operates the website, worldradiohistory.com, and has collected and scanned an enormous library of trade publications, broadcast station documents and plenty more. On the next SBE WEBxtra, Dave will talk about his collection and highlight some of the more unique and interesting items. Tune in on Monday, November 16 at 3:00 p.m. EST. Go to the SBE website and click on the SBE WEBxtra link. The program is free to attend.

Thanks,
 Blake E. Thompson CBNT
