

# SBE CHAPTER 70 - CLEVELAND/AKRON

## SBE 70 MINUTES

John Carroll University, Donahue Auditorium in the Dolan Science Center

1 John Carroll Blvd, University Heights, OH 44118

Gather 6:00pm, Chapter Meeting 6:30pm, Presentation 7:00pm

Presentation: WGAR in Peace and War: An Audio Archive Retrospective 1930-1954  
- by Mark Krieger

### MAY 9th MEETING INFO

Join us at John Carroll University on Tuesday, May 9th for a brief SBE Chapter 70 meeting followed by a Presentation prepared by Mark Krieger on Cleveland Historical Radio. Mark has dubbed and digitally preserved audio of the 1930's thru 1960's from the transcription records in the John Carroll audio archives. The presentation will focus primarily on WGAR, and feature audio that possibly has not been heard since the original broadcast dates. Basically you will be at the opening of an audio time capsule!

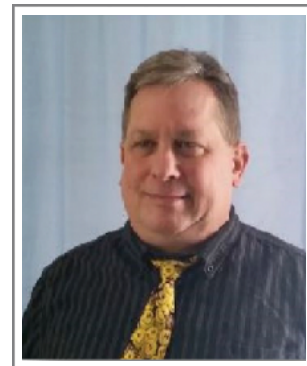

Gather at the tables and chairs in the atrium area of the Dolan Science Center, outside of the entrance to Donahue Hall before 6:30pm. Our SBE Meeting will begin at 6:30 pm, after which we will proceed to seating in the auditorium. Since this is an early gathering with a 'hard' presentation start time, please make sure to have dinner before arrival or after the presentation, as we will not be offering refreshments or snacks at this event. Mark is anticipating attendance that could approach 80, nearly the seating capacity of the Donahue Hall auditorium, as there is a lot of interest in this presentation.

Refer to the map in this newsletter (page 2). Here is the parking and building location information from Mark... Location: Donahue Auditorium, located inside

### CHAIRMAN'S CHAT - from Blake Thompson

Hello all members and friends of SBE Chapter 70. First up I want to thank those who attended our March meeting on EAS and Chief Operators. I enjoyed presenting what has changed and a neat piece from [thebdr.net](http://thebdr.net) called 'A Maintenance program that Works'. I've included a monthly Station/EAS log example (on page 3), that Terry Baun also recommended for years, which includes all current required info with weekly signoffs. As a reminder you should all have a copy of the new 2023 EAS handbook filled out and printed at your facilities by now, see the new cover on page 3.

In national news the SBE Membership drive is ongoing, along with the new compensation survey. On May 11<sup>th</sup> the SBE will hold an RF Safety webinar at 1 p.m. The SBE RF Safety Course provides an updated overview of RF radiation issues and practices for broadcasters. The course is designed for broadcast station personnel, including chief and assistant chief engineers, transmitter site engineers, ENG and SNG maintenance personnel and management who need to have an understanding of RF safety issues and regulations.

## Meeting Info (continued from Page 1)

of the Dolan Science Center. This is the brick building closest to Fairmount Circle (Warrensville & Fairmount Circle). Enter through the gate and park in the adjacent lot on the south (right) side of the building. There is a large atrium area just outside of the auditorium with seating and tables where we will meet and conduct our SBE Meeting. The presentation will start at 7PM.

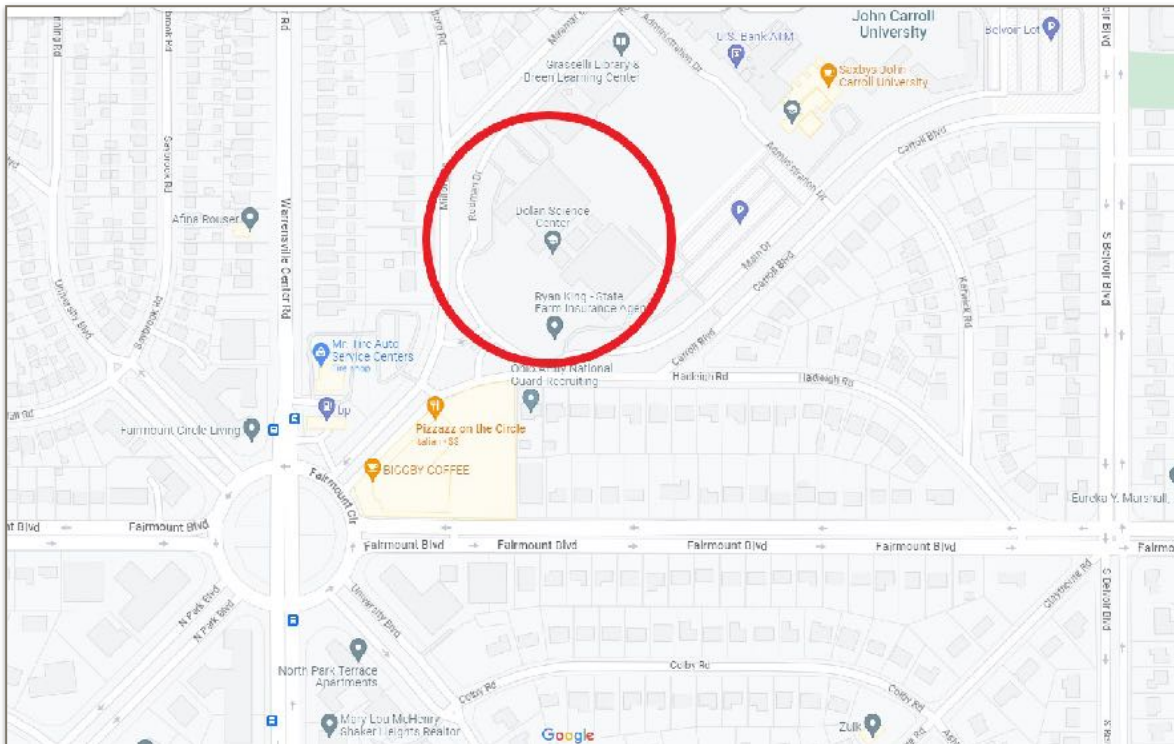

-John Hovanec, CSRE/CBNT DRB AMD  
SBE Chapter 70 Program Chair

## Chairman's Chat (continued from Page 1)

It is recommended that persons taking the SBE RF Safety Course have at least some basic knowledge of electronics and understand the concept of frequency and power. Visit [sbe.org](http://sbe.org) for more information.

That's all for now, I hope to see some of you at JCU.
