

SBE CHAPTER 70 - CLEVELAND/AKRON

SBE 70 MINUTES

SBE Chapter 70 Meeting
Tuesday, December 12, 2023
Gather Online beginning at 6:30pm
Meeting 7:00pm, Presentation or open discussion to follow

DECEMBER 12th MEETING INFO

The December 12 meeting will be virtual, via Zoom. As of now, we don't have a presentation locked down, so it may be open discussion, or, if there is a topic you would like to discuss or share information on, let me know... I know we have some knowledgeable members that can step up and offer something that we would all find of interest! It can of course be informal... we don't need a polished presentation, so put your thinking caps on and let me know.

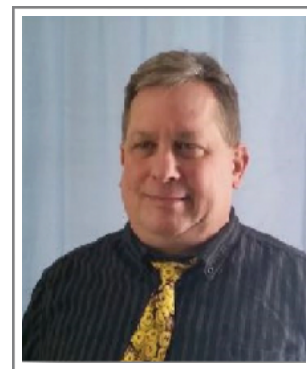

We will update everyone via an email with the reminder prior to the meeting with that 'to-be-determined' presentation.

Usual times apply: Gather online at 6:30pm, Meeting at 7pm and program and/or open discussion to follow.

-John Hovanec, CSRE/CBNT DRB AMD
SBE Chapter 70 Program Chair

CHAIRMAN'S CHAT

Hello all members and friends of SBE Chapter 70. First up we give big thanks to Corny Gould of Angry Audio for coming out with a fine program on LUFS. We covered what it means, how to measure it and all the streaming standards that use it. A very informative session, but there was even more! He also brought along a Chameleon REbel processor for us to test, all I can say is... amazing. To be able to hear your voice at a consistent level, without any room noise and with no gating either. Corny has done it again!

As a reminder, if you have a Sage EAS box you now have until March 11th to update the software, everyone else has to be updated by December 12th.

In national news the SBE Ennes Workshop Returns to the NAB Show. Plans are proceeding for a two-track [SBE Ennes Workshop](#) to be held at the Las Vegas Convention Center's West Hall April 12 and April 13.

(Continued on Page 2)

SBE CHAPTER 70 - CLEVELAND/AKRON

Chairman's Chat (continued from Page 1)

The SBE will again present the RF 101 Bootcamp, designed to give those with a predominantly IT-oriented background the foundational information regarding transmission methods and equipment so they can effectively function in these disciplines. A group headed by Jeff Welton, CBRE, will present this workshop.

New for 2024 is a track to introduce the essentials of IP-delivered media, covering both video and audio implementations. The vast majority of audio studio builds today utilize IP infrastructure from the microphone forward, and the ATSC 3.0 universe is totally IP-based. Individuals involved with non-broadcast media delivery, whether a house of worship, post-production facility or as an audio-visual professional will also benefit from grounding in the installation and maintenance of modern non-analog plants. The Media Over IP (MoIP) Essentials workshop is being crafted by David Bialik, CBT, and Fred Willard, CPBE, 8-VSB, ATSC3, CBNT. The two-day workshop includes lunch breaks. More details and registration will be available on the SBE website.

Also coming up soon is the 2023 Workbench Tips with John Bisset - A free webinar, courtesy of SCMS on December 19, 2023 @ 2 p.m. ET. Spend an hour and pick up some tips that will help you perform your engineering job more efficiently and even help you earn a raise. In addition to providing Workbench Tips, John will discuss strategies to inform management of the crucial role you play at your stations. Instructor: John Bisset, CPBE; Director, Western US Radio Sales, Telos Alliance

SBE CHAPTER 70 - CLEVELAND/AKRON

NOVEMBER MEETING PICS

SBE CHAPTER 70 - CLEVELAND/AKRON

SBE 2024 Certification Exam Schedule

Exam Dates	Location	Application Deadline
February 2-12	Local Chapters	January 3
April 16	NAB Show/Las Vegas	March 1
June 7-17	Local Chapters	April 26
August 2-12	Local Chapters	June 14
November 1-11	Local Chapters	September 6

When you are ready to take an SBE exam, please fill out the appropriate [application](#) and send it into the SBE National office. You will be notified once your application has been approved. Approximately 3 weeks before the exam time, your local certification chairman will receive a list of applicants in his/her area. He/she will then contact those applicants to schedule a date, time and place for the exams. The exams will be mailed back to the National office for grading. The pass/fail grades will then be mailed directly to the applicants.
