

SBE CHAPTER 70 - CLEVELAND/AKRON

SBE 70 MINUTES

Tuesday, November 12, 2024

Cuyahoga County Library - Parma Branch - Meeting Room C
6996 Powers Blvd., Parma, OH 44129

Gather 6:00pm, SBE Chapter 70 Meeting at 7pm, Presentation to follow
Presentation: MBMTC 2024 Highlights

NOVEMBER 12th MEETING INFO

Join us at the Parma-Powers Branch of the Cuyahoga County Library, Meeting Room C, Tuesday, November 12th at 6pm. We will have pizza and refreshments before the 7pm meeting.

For our presentation, we plan to feature excerpts from a few of the seminars of interest, as presented at this year's MBMTC.. the Midwest Broadcast & Multimedia Technology Conference . MBMTC as usual, featured some interesting seminars and was held October 2-3 at the Columbus Conference Center. If you did not attend...or even if you did, we hope to be able to share some of the seminar material that was recorded, as time permits. We will also be open to smaller 'show and tell' devices that you may want to bring in to discuss, as we've done in the past. **Note that we are meeting this month at a different branch of the Library...in Parma, off of Ridge Road near Parmatown.**

Hope to see you there!

CHAIRMAN'S CHAT

By Blake Thompson

Hello all members and friends of SBE Chapter 70. First up I want to thank everyone who made it to the MBMTC this year. I think it was one of the best yet. We're sad to see Chris Merrit leaving the OAB, but we could be hosting the national SBE conference again next year, so it will continue forward. Thanks also to our own Frank Foti for the incredible surround program and demo on Wednesday afternoon. We were all very impressed by the technology... and song choices.

In national news, the SBE has several webinars coming up:

Nov. 14, 2024 / 2 p.m. ET - *Introduction to Linux for Online Broadcasters.*

This presentation provides an introduction to Linux, some history of its development and adoption along with some basic lessons on how to use it, tools that are useful for online broadcasters, and where to find help as you increase your Linux proficiency.

Chairman's Chat (continued from Page 1)

December 5, 2024 / 2 p.m. ET - *Asymmetrical Sidebands for HD Radio*

The FCC modified its rules governing digital FM transmissions, permitting for the first time the use of asymmetrical power levels in FM digital transmissions. This webinar discusses the new rules, the method for calculating the maximum digital power toward a first-adjacent channel neighbor and present some hypothetical scenarios where asymmetric digital power levels could be used to good effect.

December 12, 2024 / 2 p.m. ET - *A new Workbench Tips with John Bisset*

Spend an hour and pick up some tips that will help you perform your engineering job more efficiently and even help you earn a raise.

Thanks,
